MuniMetriX News & Technical Tips

... that you can expand your Silo Paperless Office experience?

Your Silo Paperless Office account doesn't have to be just for storing insurance-related documents. It is a versatile tool that you own and control.

Currently you have Projects (containers where your documents are stored) for your Client Files and maybe Admin Files, but did you know that you can have more projects for a wide range of documents:

- **Personal Files:** Clear out your file cabinets at home and scan important items such as banking information, legal documents, personal insurance records, receipts, bills, and medical information.
- **Side Businesses or Hobbies:** Whether you have documents related to your side business or even a collection of recipes, Silo is the perfect place to keep everything organized.

These are just a few examples of the types of Projects you can have - the possibilities are endless! We can set up as many projects as you need at no extra charge!
