MuniMetriX News & Technical Tips

… you may not be using all of the features offered by ImageSilo?

Over the years, there have been many changes made to the ImageSilo system, it could be possible that some of our long-term users may not be aware of the newer options ImageSilo offers. For example, our **Tools** feature, which offers the drag/drop capability from your desktop or email, full upload and editing capability from anything Microsoft Office, and a Print-to-ImageSilo option is extremely convenient. Call us today to ask us about them!

… you have available unlimited training on the use of ImageSilo?

Do you have new users? We have found that when a user is trained by another user, who was trained by a previous user, who might have been trained by someone else a while back, things can get lost in translation.   Because of this, it's very possible that you or your staff could be missing out on some new functionality! We are always happy to train new people, or just give a refresher. As always, there is **NO CHARGE** for support. Our technical support staff is ready to hear from you!

We want to encourage you, as a valued customer, to reach out to us should you have any suggestions or ideas you feel would be a benefit in your use of ImageSilo. Call us at 800-457-3733 or e-mail us at support@munimetrix.com any time! We appreciate your loyalty!
