MuniMetriX News & Technical Tips

... November 6th is World Paper Free Day (WPFd)?

We always want to save the trees, but especially on November 6th, 2021 which is WPFd (World Paper Free Day). What sort of holiday is that you ask? WPFd isn't just about switching off the printers, it's about working smarter, decreasing the paper entry points, and improving processes. Sponsored by AIIM (Association for Information and Image Management), World Paper Free Day is intended to call attention to the amount of paper we use. We are joining them by inviting people and companies to pledge for a single day that they will not create any paper. This is a great opportunity to reach out to your customers about their paperless goals, and we would like to help with that.

Lets get the word out!

Here are some fun facts about paper usage for you to share. Feel free to use these sample tweets on your social sites -- but please, don't print them!

- Did you know the average document is copied 9-11 times?
- Did you know the average organization spends about \$20 in labor to file a single document?
- Did you know the average Office Worker uses 10,000 sheets of paper each year?

You've obviously already taken the first step by being the awesome "paperless" customer you are. But tell your friends! Let MuniMetriX also help rid them of the burden of paper in their office. Paper Happens, and we can help! We also have a referral program so you

can get account credit for any referrals that sign up with us just by mentioning your name. Have them call us today to go paperless tomorrow!

We want to encourage you, as a valued customer, to reach out to us should you have any suggestions or ideas you feel would be a benefit in your use of Silo. Call us at 800-457-3733 or e-mail us at support@munimetrix.com any time! We appreciate your loyalty!
